

TSB #	SUBJECT	DATE of RELEASE
TPMS_DT_8.4	Software Update for TPMS Desktop	3/29/2021
SW VERSION	TOOL[S] AFFECTED	
V8.4	TPMS Desktop	

Feature	Description	TPMS DT
Coverage Updated in Vehicle Lookup	Updated coverage to match R63 as seen on your Bartec Tools.	✓
Support Certificate Registration	Ability to register extended support certificate through TPMS Desktop.	✓

Updated Coverage:

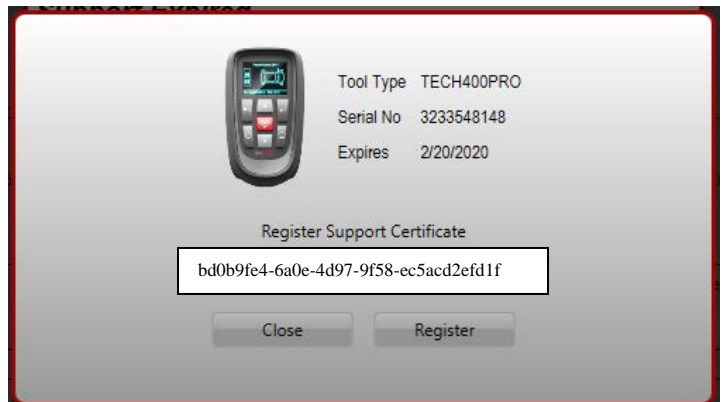

TPMS Desktop Make Model Year look up has updated the Coverage to match R63 on the Bartec TPMS tools.

Support Certificate Registration:

If the Bartec TPMS Tool is out of support in the past you would have seen the date of when the users support expired without the ability to update or extend coverage from TPMS Desktop. Now upon receiving the support certificate the user has the ability to register the Support Certificate directly under the Update Tab.

TECH400PRO	3233548148	62.3	Support Expired	02/20/2020	62.3	Use Support Certificate
------------	------------	------	-----------------	------------	------	-------------------------

To activate your Support Certificate in TPMS Desktop click Updates, please select the tool you would like to use the Support Certificate for. Click the button. The Register Support Certificate window will then pop up displaying the tool type, Serial Number, and the date it expires. Please enter the purchased Support Certificate ID into the blank field. Once the ID has been entered click Register and TPMS Desktop will extend the support to the years purchased.
